PROFESSIONAL SUMMARY

Full Stack Developer with experience building and evolving web applications, working on end-to-end projects within agile teams.

Currently focused on Frontend development with React, Next.js and TypeScript, with Backend experience using Spring Boot, ASP.NET Core, .NET and Laravel. Experienced in designing and integrating REST APIs, developing end-to-end features, working with databases and applying software architecture and design best practices.

I have worked with hexagonal architecture (Ports & Adapters), SOLID principles, separation of concerns, testing, code reviews and deployment processes, contributing to the evolution of products from development to production.

I am interested in building scalable, maintainable solutions that address real business needs, combining a technical perspective with a focus on user experience and product quality.

PROFESSIONAL EXPERIENCE

FULL STACK DEVELOPER — GAMA S.A.
Aug 2025 – Sep 2026

- Developed end-to-end features with React, Next.js, Java, Spring Boot and ASP.NET Core.
- Built REST APIs and backend services following hexagonal architecture (Ports & Adapters) and SOLID principles.
- Developed reusable React components and interfaces and integrated them with backend services.
- Handled testing, code reviews, issue resolution and code refactoring.
- Took part in deployment processes and worked under the Scrum methodology.

FULL STACK DEVELOPER — TRAYCHI
Nov 2024 – Aug 2025

- Developed web interfaces with React and JavaScript, creating reusable, scalability-oriented components.
- Took part in migrating applications to Next.js, improving performance and SEO ranking.
- Integrated REST APIs and collaborated with the backend team using Spring Boot.
- Worked under the Scrum methodology, using Git and Jira for version control and development management.

FULL STACK DEVELOPER — CATHOLIC UNIVERSITY OF CÓRDOBA
Jun 2022 – May 2025

- Developed internal applications using React, PHP, Laravel and Symfony, integrating REST APIs.
- Took part in the full development lifecycle, from analysis and planning to testing and production deployments.
- Implemented API testing and documentation using Postman and took part in code reviews.
- Collaborated on digitizing and optimizing administrative processes through web solutions.

WEB DEVELOPER — FUNDACIÓN VICENTINA
Dec 2020 – Mar 2024

- Developed and maintained the institutional website using HTML, CSS, Bootstrap, JavaScript and jQuery.
- Implemented responsive interfaces and optimized performance to improve accessibility and load times.
- Managed hosting, domains and deployments using Hostinger.

EDUCATION

Bachelor's Degree in Computer Science — National University of Córdoba
2014 – 2017 · Not completed

CERTIFICATIONS

- SQL and MySQL Course — Platzi, 2024
- PHP Full Stack Developer: Backend — UCA, 2023
- Agile Project Management with Scrum — UCC, 2023
- PHP Full Stack Developer: Frontend — UCA, 2022

TECHNICAL SKILLS

- **Frontend:** React, Next.js, Angular, TypeScript, JavaScript, HTML5, CSS3, Bootstrap
- **Backend:** Java, Spring Boot, C#, .NET, ASP.NET Core, Entity Framework Core, Minimal APIs, PHP, Laravel, Symfony
- **Architecture & design:** Hexagonal Architecture (Ports & Adapters), Clean Architecture, basic DDD, SOLID principles
- **APIs & tools:** REST, GraphQL, Postman, Git, GitHub, Docker
- **Databases:** MySQL, SQL
- **DevOps & deployment:** Hostinger, hosting and domain configuration, web application deployments
- **Testing & quality:** API testing, code review, web performance optimization, Lighthouse
- **Methodologies:** Scrum, Jira, Trello
- **Design & prototyping:** Figma
- **AI-assisted development:** ChatGPT, GitHub Copilot, Gemini, prompt engineering

LANGUAGES

- Spanish — Native
- English — B1 (Intermediate)
